

## Founder's Note

Yashamm was born out of dreams and not just as a business. My father started this textile business keeping in mind our customers' expectations and bridging that gap. Today a sari is not just a traditional outfit but is slowly becoming a fashion statement. Each weave, each design and the tiniest of details are taken care of while manufacturing these 6 yards of style statement. Our endeavor will always be to succeed with an intention and purpose of serving the community at the highest level. Our intention is to give the best in the industry, be it our suppliers, buyers, employees and the community as well.
